<h3>

Status for week ending 3/2/2001</h3>

1. On vacation from 3/1 to&nbsp; 3/2

<p>2. Continued work on VL5 configuration/testing. The current problem with testing for Magic Carpet authentication is that the user auth information (screen name, service type, etc) is available only for the first request to the web server. I have sent my configuration files to the vlsupport team, but no resolution, yet.

<p>3. Started making modifications to the Merchant Comparison module to include local store information.

<h4>

Next Week:</h4>

1. Continue testing of VL5 plugin.

<br>2. Work on implementation of&nbsp; Local Stores.

<br>3. Support CTA Banner service and Shopping List.</html>
